

# BEER & BIOTECH

*If it's Thursday, it's time for Beer & Biotech*

**Life Science Tennessee hosts Beer & Biotech events in four cities across the state each month in partnership with Academic Alliance.** LST members gather at a local pub to network with each other and members of Tennessee's life science academic community to hear about the latest innovations from featured speakers and industry experts.

**Each Beer & Biotech runs from 5:30-7pm** with a brief program beginning at 6:10pm. These casual events are the perfect opportunity to connect with industry peers and tap into the vibrant life science community in Tennessee.

**Beer & Biotech events will be held in September, October, January, March, April and May on the following schedule:**

- 1st Thursday of the month, Memphis*
- 2nd Thursday of the month, Nashville*
- 3rd Thursday of the month, Knoxville*
- 4th Thursday of the month, Chattanooga*

**[RSVP for a Beer & Biotech in your city!](#)**
